The Standard AND RIVER PLATE NEWS.

No. 3,038—Twelfth Year — BUENOS AYRES, SATURDAY, JULY 6, 1872. — Circulation, 3000.

MAUA BANK,

191—193 CALLE CANGALLO

The Offices of this Bank having been removed to the above spacious building, in order to suit the increasing flow of business, the public is informed that the following transactions are carried on in currency and specie in this Bank:—

First—Bills and obligations with good signatures are discounted on conventional terms.

Second—Money is advanced on mercantile and other securities approved of by the Manager.

Third—Accounts current are opened with Merchants or other parties who may prefer depositing endorsed and transferable securities, against which they may draw up to an amount previously convened under conditions established for such class of operations.

Fourth—Money is received in account current, bearing interest from day of deposit, which is accumulated in favor of the parties every three months, the depositors being allowed to retire at any time, by means of cheques, part or the full amount at their wish, save when the quantity exceeds three hundred doubloons or one hundred thousand dollars currency in which case forty-eight hours' previous notice is required to be given to the Treasury of the Bank.

Fifth—Bills or letters of credit are drawn and taken on Montevideo, Rosario, Sta Fé, Salto Oriental, Paysandu, Rio Janeiro, and other places in the Brazils, England and France, as also on other places, of which notice will be given hereafter.

Finally, the Bank undertakes and executes all legitimate transactions within the orbit of banking operations.

The establishment is always open from 10 a.m. till 3 p.m.

GOVERNMENT MORTGAGE BANK

Offices—111 CALLE SAN MARTIN.

This Bank will be open to the Public on all business days from 10 a.m. to 4 p.m.

It advances on real estate to be repaid at long dates.

It pays Mortgage Certificates (Cedulas Hipotecarios) for the amount of the loan it advances, which bear an interest equal to that collected by the Bank.

The value of property offered in mortgage shall not be under two thousand patacons, nor the loan be less than 500 fuertes.

No loan can exceed half the value of the property mortgaged.

The Mortgagor shall bind himself to pay an annual sum so long as the mortgage lasts, said sum to represent the interest on the sum lent the amortization fund and commission to the Bank. This yearly sum shall be paid quarterly or half-yearly.

Series A—Quarterly.

Mortgage for 20 years 117 days, 8 per cent. interest, 2 per cent. amortizatipn, and 1 per cent. commission.

Series B—Quarterly.

Morgage for 27 years 270 days; 6 per cent. interest, 1 per cent. amortization, and 1 per cent. commission.

Series C—Half-yearly.

Mortgage for 20 years 190 days; 8 per cent. interest, 2 per cent. amortization, and 1 per cent. commission.

Series D—Half-yearly.

Mortgage for 28 years 5 days: 8 per cent interest, 1 per cent. amortization, and 1 per cent commission.

Upon the full payment of the yearly sums stipulated in the Mortgage, both property and Mortgagor shall be freed from all further obligation.

The Mortgagor shall be at liberty to anticipate the payments and to discharge the mortgage, all or in part.

Applications for mortgages must be made in writing, specifying the property offered, accompanied by the title deeds, the receipts of the Contribucion Directa tax, and setting forth that the property is free from all incumbrance, or if not the incumbrance that exists thereon, and which is to be paid off by the mortgage. The Secretary of the bank will supply applicants with the forms necessary as also the tables for amortization.

Quarterly mortgagers shall pay from 8th to 15th of each January, April, July and October, and half yearly mortgagors shall pay between the 8th and 15th of each January and July.

With the amortization fund, mortgage certificates (cedulas) shall be redeemed at par by quarterly and half yearly drawings.

The mortgage Bank pays the interest on the quarterly cedulas or mortgage certificates between the 31st December and 6th January, the 31st March and 6th April, the 30th June and 6th July, the 30th September and 6th October every year, and on the half yearly cedulas from the 31st December to 6th January, and from 30th June to 6th July.

The Mortgage Bank can act between the capitalist and mortgagor, free of charge in the way of realizing the cedulas, and for this purpose will receive deposits without interest, which will receive a preference, and which sums will be deposited in the Provincial Bank.

On and after the 15th February 1872 the Mortgage Bank will be open to the public.

Even when the members have rotted on the trunk and the corrosive poison of scrofula is mining its way to the seat of vitality, as in the memorable case of the boy Wyckoff, the progress of the malady may be stopped, and the wreck saved, by the use of this powerful vegetable antiseptic. Put aside the operating-table and the steel and decline to be mutilated, unless rapid mortification is in progress. At all stages of ulcerous disease short off that, the balsamic depurative that cured Wyckoff will save the patients. CONGRESS AND THE FRONTIER.

REPORT OF SPECIAL COMMITTEE.

The Special Committee, consisting of Messrs Garrigos, Moreno, Alcobendas, Pascual Rosas and Gen. Gelly-Obes, appointed by Congress to report on the Frontier Question and suggest the most suitable measures for the emergency, have, after a week's deliberation, handed in their *Informe*, one of the most plain-spoken and sensible documents ever published in Buenos Ayres. It lays down facts which were notorious everywhere but in the Government house, deplores the ruin and bloodshed caused by the Indians, yet says they are more sinned-against than sinning, and proposes to make new treaties with them, to put a stop to the injuries and injustice with which they are treated, and give them lands on the Rio Negro which they may enjoy in peace; at the same raising the forces on the frontier to a strength of 10,000 men, The Report in a condensed form is as follows—

"The Special Committee have given the matter full deliberation and held frequent interviews with the War-Minister, the result of our considerations being contained in two Projects of Law annexed.

"For many years we have been troubled with Indians, and at frequent intervals our frontier settlers have had to complain of their inroads. But it was the Paraguayan War which led to the neglected state of our frontier-garrisons and the sad effects since noted. Our best commanders and troops were moved away to the seat of war, their place being supplied by ill organized levies of Nat. Guards.

"The Indians were not slow to profit of the times, and so far back as August 1867 their ravages were so great that on the 13th of that month Congress passed the best law ever devised on the subject, but which has ever since remained a dead-letter.

"That law was hailed as a blessing, because it treated the Indian difficulty in the way which all cool-headed people regarded as the only one possible. It was not to over-run the Pampas, exterminate the Indians, or make bloody reprisals which would surely be followed by Indian vengeance doubly severe. It recognized the fact that Indians were a necessary evil, and the only way to deal with them was by friendly arrangement and encouraging them in habits of industry; giving them lands near the frontier if they would abandon a wandering life; and as a last resource driving all tribes who made resistance beyond the Rio Negro. At the same time colonies of a semi-military character were to be established so as to lighten the task of frontier-defence.

"The war in Paraguay rebellion in Entre-Rios, and empty state of the Treasury prevented these measures from being carried out But if this be an excuse as regards military arrangements and colonies there can be no apology for the neglect to make treaties with the Indians. The Minister confesses that the law has been completely overlooked: supplies have been given some tribes, but without giving the lands to settle on, and hence it sometimes happened that while receiving supplies they were in arms against us. It is true that Catriel joined Rivas against Calfucurá last March; and Col. Obligado writes that Cacique Mariano and his people are improving in agriculture. But it is no wonder the Pampa Indians make incursions in our territory, when we see how shamefully they are robbed and cheated, and sometimes the stipulated supplies stopped altogether.

"The National Government must put a check to the scandalous swindling of which the Indians are victims, and to the still more nefarious traffic of buying from them the cattle &c. which they steal in their inroads.

In fine we propose the following remedies—

1st. To bring the Indians to terms, give them lands and deal with them fairly.

2nd. To occupy the frontier line in proper strength with troops of the Line.

3rd. To establish suitable communications between the various forts and the nearest towns.

4th. To form thriving settlements along the Rio Negro.

5th. To put in force the law of August 1867 in every particular.

The work of pacification may be slow, but it ought to be sure, and if an expedition be sent to the Rio Negro, it must not be merely for a "paseo militar," but to garrison and hold the country

But besides the outside line of frontier there must be an inner line to protect the estancias and settlemets in exposed districts, for we see at present that whenever the Indians get inside the line of forts they have no opposition to fear, the neighbors being destitude of arms, organization, or centre of defence, and taking to flight at the first sound of alarm.

We have, moreover, impressed on the War Minister the necessity of having winter quarters for horses at suitable points, to prevent the oft-repeated excuse of the Comandantes for not pursuing the invaders. Arms should also be of easy access to the Nat. Guards whenever a serious inroad takes place.

The Government is bound to second the action of Congress by devising all necessary steps for the better protection of the frontier; otherwise it is useless for us to vote men, arms and money for the purpose.

1st. Project.

Art. 1st. The Nat. Government, in virtue of the law of August 1867, shall at once proceed to make treaties with the Indian tribes, allotting them lands for their settlement.

Art. 2. These treaties, as well as the mode of allotting lands beyond the Rio Negro, shall be submitted for approval of Congress by May 1873.

Art. 3. This does not interfere with the military expedition stated in said law, of which the Minister shall report progress.

2nd Project.

Art. 1. The standing army shall be raised to 10,000 and the Government may recruit it from the various provincial militias.

Art. 2. In such event the ordinary troops of the Line shall defend the outer, and the Nat. Guards the inner line of frontier.

Art. 3. The expenditure shall be defrayed out of the War estimates or a special credit.

Garrigos, Moreno, Gelly.Obes, Rosas, Alcobendas.

LATEST FROM CHILE.

OVERLAND MAILS.

Valparaiso, June 9th.

A dreadful riot occurred last week among the Sota colliers. The troops were called out; two colliers and a woman shot dead, and three soldiers wounded.

Messrs. Dartnell, Anderson, d'Alengon, Koenig, Schonherr, and the brothers Held have naturalisation papers from Congress.

The new Immigration Department will be opened soon; the Chief to receive $3000 per annum, and his three subordinates $1200 each.

Small pox continues its ravages: yesterday there were 87 patients at Playa Ancha.

In the debate last week on Magellan Guano it was resolved to pay no attention to the complaints of Mr. Frias, Argentine Minister, but leave them till the question of limits came up for solution.

Preparatory to the Exhibition of Santiago, which is to take place on the picturesque hill of Santa Lucia, it has been allowed Mr. Wilkinson to remove the remains of some English Protestants buried there.

Intendente McKenna is determined to remedel Santiago and has called for proposals for a boulevard around the city. He has newly paved the street in front of the hospital, as the noise incommoded the patients.

At the inauguration of the Chilian and Talcahuano railway President Errazuriz telegraphed that he hoped to see Concepcion connected with Santiago before his term of office expires.

Mr. Dickie, purser of the steamer Paraná was drowned at Callao, bathing.

THE NEW ITALIAN BANK.

The statutes of the ITALIAN AND RIVER PLATE BANK as approved by the Legislature of Buenos Ayres and promulgated by Governor Acosta may be summed up as follows—

The head-office is to be in B. Ayres, with branches throughout the Argentine and Oriental Republics. The Company will be formed for 30 years, and may be renewed on the expiration of the term, provided out-going shareholders be repaid in full their proportion of the capital, reserve fund and profits for the last year.

The Bank will do the usual range of business; discounting bills, treasury notes and other securities; advancing money on National or Provincial Bonds, bullion, bills of lading, or goods in deposit; buying or selling securities for customers; collecting coupons or dividends; opening credits on certain conditions either here or abroad; accepting bills from abroad; keeping securities or treasure for customers; issuing certificates to order &c. The Bank cannot do any transaction in its own shares, nor enter into Bolsa speculations, or put out at long dates the money it receives in deposit. It may keep agents in the Provinces or abroad, to be appointed by the Directors.

The capital is 1½ million hard dollars, in 15.000 shares of $100 each; one half of these shares to be taken up in Italy on the same terms as the others in B. Ayres, to be paid up in full. The company may double the capital if they afterwards find expedient. Certificates will be given for payment of calls, which will be ten per cent. at date of subscription, and afterwards in intervals of 60 days; when all is paid up the shares to bearer will be delivered. Any delay in paying the calls will be charged at one per cent. a month, and after 30 days the Co. may declare the shares of such parties forfeited.

General meeting will be held half-yearly, in January and July, 20 shareholders representing one-sixth of the capital to form a quorum: ten days notice to be given in the newspapers If there be no quorum another meeting shall be called after an interval of 5 days and then business proceeded with regardless of the number present.

The shareholders in such General meetings will elect the Board of Directors, examine the balance-sheet &c. No one can vote unless he be a holder of 12 shares, and for every extra 12 he shall have another vote, up to six but no higher.

The Board will comprise 8 Directors to hold office for 2 years, and be renewable in moieties yearly. The Directors receive no salary but will get a medal each day they attend, to be rewarded as expressed hereafter. They must hold at least 50 shares each, and deposit same as a guarantee of good conduct. They shall meet weekly, or oftener if necessary, but take no deliberation unless at least 3 be present. They shall appoint the Manager and employees, fix the rate of interest, declare dividends &c. Two of the Directors shall at least once a month examine the books, cash &c., and every half-year the Balance-sheet shall be published in the leading journals of B. Ayres or wherever a branch exists.

The Provisional Board of Directors shall be formed of—

Marco Demarchi, Nicola Schiaffino, Paulo Marengo, Giuseppe Piaggio, Achille Maveroff, Antonio Devoto, Bartolome Viale and Serafino Pollini.

The Bank of Genoa shall be represented by Sig. Viale, the Bank of Milan by Giovani Battista Bacigalupo, and the Banco Italico by Sig. Piaggio.

A special Director shall be chosen from the Board to represent it in law-proceedings &c.; he must deposit 100 shares for his guarantee.

The profits are to be divided thus—

4 per cent. to the founders or their heirs.

7 per cent. among the Directors, according to their medals.

5 per cent. for Reserve-fund.

84 per cent. among the shareholders *pro rata*.

Dividends shall be payable here and in Italy.

The founders of the Bank are the same parties whose names are above given for the Provisional Board of Directors, of which Sig. Piaggio acts as chairman, Sig. Maveroff vice-chairman, Dr. Cittadini secretary, Sig. Pollinini manager, and Demarchi, Schiaffino, Devoto, Marenco and Viale as advising directors.

LONDON LETTER.

(*Our Own Correspondent.*)

Derby Day, 1872.

Derby Day again. A week so far of truly summer weather. On this eventful day the 'road' was pleasantly shaded with a canopy of thunder-clouds. The atmosphere was comfortable, and the dust not excessive. The Clapham Road, with its suburban villas, its roses and rhododendrons, its muslined beauties at the windows, its pretty dolly-mops at the garden gates, was much the same as usual; and still mucher the same are the accounts of the 'road' in the evening papers, with the inevitable costermongers, the aristocratic drag, the family waggonette, the description of all which is generally ready for the printer long before the reporter finishes his breakfast at a Strand chophouse.

The three favorites were, Prince Charlie, 11 to 4; Cremorne, 100 to 30; Queen's Messenger, 7 to 1. After those followed Wenlock, Almoner, Drummond, Winslow, Laburnum, &c., but no mention was made to outsiders of Brotner to Flurry, which gave the winner such a hard tustle for the green riband.

The winner was Mr. Saville's Cremorne; Brother to Flurry second: Queen's Messenger third. The race was splendid. Cremorne won by a head. Twenty-three ran. The owner of Brother to Flurry went in to win, and he is become a more celebrated horse than Cremorne. The losses on Prince Charlie will be heavy; he was nowhere.

Whilst I write the thunder clouds have broken, and are coming down in torrents to the great discomfiture of many Buenos Ayreans who have done the Derby, but look forward to the finish of the day at Cremorne. Stragglers from Epsom are still rumbling past one's windows, and gaping English crowds, who have been to Clapham, Kennington, the Elephant and Castle, and other standing points to see the Derby people come home, are rushing by with their hats in handkerchiefs and their petticoats over their heads in default of umbrellas. You know the kind of thing. Year after year it is the same dreary mania. Mr. T. Hughes, member for Kilmarnock, made a most revolutionary motion in the House of Commons, proposing that the House should not adjourn on the Derby Day, for, as the honorable and pious member observed, they had refused to adjourn for two short hours on Ascension Day, so that he and Mr. Beresford Hope, and probably Mr. Gladstone, might go to church. The House, however, refused to listen to the honorable member for Kilmarnock.

Mr. Justice Keogh (a Catholic) has delivered a most remarkable judgment in the Galway election case, and has declared the freturn of Captain Nolan to be invalid, in whose election spiritual influence and intimidation had been largely used. Justice Keogh reported that the Archbishop of Tuam, the Bishop of Galway, the Bishop of Clonfert and fifty or sixty other ecclesiastics had been guilty of an organized attempt at clerical intimidation and were guilty of corrupt practices. Justice Keogh is backed by the resident Catholic gentry in Galway, where the system of priestly terrorism exists, and where under the ballot it will exist in greater force. It is a very singular feature of the times that the English church party (to whom Mr. Gladstone belongs) are rather in favour of the priests and against Justice Keogh. They see now what they might have seen before, that under different names the same questions exist in England as in France, Ireland and Germany. Render unto secularism what is secular and unto the church what is of the church. The educational measure will certainly be reformed next session in favour of the non-conformists, and the battle against infidelity of which Mr. Gladstone has a childish fear will be fought by united christians of all sects. To give the championship of christianity into the hands of infallibists, Anglicans or Presbyterians, is a blunder when infidel books are not as they were fifteen years ago concealed in scholastic ambiguousness or confined to low and filthy book stalls, but are, as Mr. Gladstone says, bound in scarlet and gilt, and on our drawing-room tables. Eight columns of the *Guardian* before me are occupied with a review of the Duke of Somerset's 'Modern Scepticism,' and two columns of the *London Standard* with a review of 'Mankind and their destiny,' by an M. A. of Baliol College, Oxford, one of the most daring and rabid attacks on christianity that has yet appeared.

A lengthened attack on the Court of Rome by the late Count Montalembert is to be published in the *Esperance de Rome*, the organ of the old Catholic party in Paris. It is edited by Pere Hyacynthe. The Countess Montalembert threatens Pere Hyacynthe with a lawsuit if he publishes it. But it seems he has the written permission of the late Count to do so.

It is a curious policy on the part of the Vatican and Jesuit party at this unfavorable moment to take the aggressive in the struggle. It is to be supposed that a party usually so wise in their generation know their own business; otherwise amongst other blunders the most extraordinary one is the recent onslaught on English ritualism by Monsignor Capel. Mon. Capel is attached to the Roman Court, and is here evidently as a missionary. He is a sensible and powerful preacher. I heard him not many nights ago. He is the son of a poor fisherman in the South of England. His castigation of our ritualists and their catechisms and silly pinchback imitations of Roman forms and doctrines was faultlessly true; but he has driven the ritualists over to the enemy, the German Liberal party with which they have no real connection; for the English High Church organs favoured the Jesuits and German clergy against the pretentions of Prince Bismarck.

The ratification of the supplemental article to the Treaty of Washington by the American Senate has created no enthusiasm on either side of the Atlantic. In America it is looked on by a certain class of politicians as a cowardly concession, and here even the *Times* seems to be half afraid that it is another 'sell.' Sensible people on both sides hope to see the thing done with; it has grown into a bore. The American newspapers, seeing that we take it so coolly, are afraid we are dissatisfied with the amendments made in the article by the Senate; but the truth is, we do not know what the amendments are, since our Government continues to be reticent on the subject. We presume the amendments to be verbal and unimportant. It is said by the *Herald* that Mr. Fish will resign as soon as the Treaty is ratified.

Mr. Horace Greeley refuses to go in for the Presidency unless he is accepted by the Democratic Convention.

Mr. Montague Bernard, professor of International Law at Oxford, and one of the High Commissioners at Washington, has delivered a lecture on the treaty and claims. The lecture is somewhat reticent, but it argues for the construction of the treaty as embracing only specific claims; and in allusion to the general views of foreign policy in America naturally unreasonable and characteristic of a young nation intoxicated with its prodigious growth and success, he said that he thought the mission of 1871 worked a sensible change in American opinions.

Tichborne and his Achates, Mr. Guilford Onslow, have been stumping at Bristol, and have raised £100 and a good deal of disgust amongst proper people. The Bristol folk, however, were loud in their condemnation of Messrs. Coleridge and Bovill, and offerred to lynch them if they went that way. No new feature in the case has been eliminated, except that some old lady presented the claimant with a bible, and another old lady embraced him, and said she knew him in his youth as the true Sir Roger.

The Prince and Princess of Wales are at Paris, and return to England next week. The Prince had a narrow escape. Just as he was stepping into his carriage at the door of the Hotel Bristol, and whilst the coachman was engaged in putting down the hood the horses set off, and before they were stopped broke the carriage into atoms. The Prince and his coachman were fortunately left behind.

M. Rouher's utter failure in the cause of the Empire, and the remarkable speech of General Trochu on the causes of the decline in discipline and capacity of the French generals, which he attributes to the demoralisation of the First Empire, are the two things most worthy of attention in French events of the past week. Two of the Marseilles murderers have been sentenced to death. You will have seen the full record of the wonderful crime at Marseilles, the murder of Mr. Greg.

Money 1 per cent. under the Bank rate, and plenty specie in the way besides what the German banks can spare us in case of pressure.

The question of the reform of our currency laws and of the Bank of England has at last got as far, at least, as the money article of the *Times*. The generation which made these laws is dying out. The whole question is intimately connected with vital political and social reforms.

THE CHACO INDIANS.

BATTLE OE SAN JERONIMO.

The following official account of a pitched battle with 500 Indians in the vicinity of El Rey, abreast of Goya, possesses more than ordinary interest of a painful character. Hitherto the Indians were less formidable since their arms consisted only of lances, but now we find that evil-disposed Christians in Corrientes are driving a brisk trade in selling firelocks to the Tobas and other hostile tribes, the result of which is shewn in the encounter described by Col. Obligado as follows—

San Jeronimo del Rey,
June 25th.

To Commander of the N. Chaco to the Inpector of Arms.

Yesterday at sunrise a band of 500 Indians, partly armed with muskets, availed themselves of thick fog and mist to endeavour to surprise my encampment in the rear, but I hurried, called out my men and engaged them, whereupon they took to flight, leaving on the ground 23 corpses, including a cacique of the Tobas, and 51 horses, besides some arms, but taking off all their wounded. Capt. Wenceslao Paz and a trooper of the 6th Reg. were killed, and Lieut. Fidel Estenio and two troopers wounded. A dealer named Sandalio Quiroga and 4 servants are missing, supposed killed.

As it rained all day I could not attempt to purse the marauders, the country being a complete quaguire. The Indians displayed great daring and courage, but will hardly molest us again after the lesson I have given them. My officers and men behaved admirably, and my losses were owing to the Indians having firearms.

The National Government should take measures to punish the rascally traders of Corrientes, Empedrado, Bella Vista and Goya, who sell arms and ammunition to the Indians. I have written to the Governor of Corrientes about it.

Manuel Obligado.

EDITOR'S TABLE.

The weather was so bad on Thursday night that no steamers left Montevideo for this port. A "pampero" raged here with a sleety rain. The worst January English weather could not be more inclement. Every kind of amusement, public and private, was suspended, and the numerous festive rejoicings planned in honour of the 'Fourth' were sadly interfered with. The small craft in port got knocked about a good deal, but most of them were safe enough, being high and dry, as for the past two days the beach has been dry for several squares outside the Mole head, the strong wind off shore having driven the water back. Yesterday was finer, but raw and very cold.

Next Tuesday, the Ninth, will be observed as a strict National Holiday. Extensive preparations are being made in all the plazas to do honour to the anniversary. All kinds of amusements for the people are being prepared. "Le bon ton" must not forget that the English Amateur Racing Club hold a meeting at Belgrano on that day.

"A propos de Sport."—In another column will be found No. 4 of "The Stud Farms of the Plate," by that true sportsman and "right good fellow," "Holderness." The present is a very interesting chapter.

Solomon, put on your black suit and bang the gong! another colleague "laid out." Marker! one life off *Nacional*! "The wild freshness of morning" wouldn't do; and it is impossible to say how long "evening's best light" may last. "It may be for years, or it may be &c."

The *Economist* gives the following list of the number of sheep on the face of the globe in 1870; it will interest our camp friends:—

Private letters from the sister city state that the apprehensions of war between this country and Brazil are rapidly subsiding there, and those speculators who "plunged" lately in hams, sugar &c, are already nervous lest they may have an overdose of the "cud of bitter fancy" to masticate ere the transactions entered into are closed. In the unhappy and improbable event of a rupture the port of Montevideo will remain open to all nations, and the Oriental Republic neutral.

The report of the Special Committee of the National Deputies on the Frontier Question "gives it hot" to the Executive. It accuses the War Minister of pushing the Frontiers out too far, thereby fanning the hostility of the Indians by encroaching on their territory; and recalls the fact that, as for back as 1867, special laws dealing with the Frontier question were passed, but were archived by the Government.

With deep regret we hear that Sr. Narcisso Martinez de Hoz had to submit a few days ago to the terrible operation of having a leg amputated, and is consequently in a very precarious condition. In common with the numerous friends of this esteemed gentleman we hope ardently for his speedy and complete recovery.

We hear of an alarming and unpleasant accident some time ago at Rio to a distinguished member of the European Consular Body, on a visit there, who, when coming ashore in full canonicals from a ship in the harbour, was precipitated into the water, by his boatmen getting up a free fight at a moment's notice and upsetting the boat; the Consul held on to the upturned boat and got quit with a fright, a ducking, and the utter destruction of his gold lace.

A bachelor in the most desperate straits for a wife advertizes for same in the *Siglo* of Montevideo. The opportunity is a good one for ladies who believe that matrimony is a lottery and men the tickets therein. We have no positive information as to whether the advertizer is good loooking or what his nationality is. We feel morally certain he is not an Irishman, or he would not want the help of the papers to get a "rib."

The death of Luengo caused immense excitement in Cordoba. The body was given to his friends, but was scarcely recognisable so severely was the fellow mauled in the fight with the police.

A home paper in commenting on the prosperity of Scotland remarks that there are now nearly as many Irish in Scotland as native born. They are to be found in every walk of life and are general favourites with their Caledonian fellow countrymen.

Nicolay, the Wizard who appeared here lately, is now performing at San Nicolas, to the deligyt of the townsfolk, most of whom are unfamiliar with such performances, and gave their 'castors' and 'tickers', to be experimented upon, with serious misgivings.

There was great anxiety in town yesterday to know how Dr. Gainza had fared on his way to the South on Thursday in this fearful weather. It was said that he had come to grief in a 'pantano' when walking to his hotel at Chascomus, but dispatches received yesterday say nothing about the accident, and that H. E. is well. During the Dr.'s absence Colonel Tejedor reigns at the War Office, and it is rumoured intends to give Calfucura "a bit of his mind" in a diplomatic note, before the Dr. returns from Azul.

The rain in most parts of the camp on Thursday was very heavy; the lagoons are now all full, and sheepfarmers easy in their minds as to water for months to come. The storm killed some lambs here and there.

A colleague says that the Opera House company is about to concentrate its attention on the production of the works of German composers, in which Sr. Perotti is reported to shine. We hear he is splendid as Raoul in the Huguenots.

We came across the following rather "tall" paragraph yesterday in a U. S. paper:—

"A natural curiosity exists in Decatur in the shape of a dog that never barked in his life, but instead of indulging in the vocal exercise common to the canine family each morning imitates the crowing of a rooster. His owner accounts for this strange peculiarity by stating that the dog was born and bred in the country, and from his earliest puphood was separated from all other curs, enjoying only the companionship of barnyard fowls. Hearing no other sounds so frequently as the crowing of the cocks, and doubtless never knowing that his species enjoyed the sole ownership of another and different sort of music he began to imitate the matutinal exercises of his feathered companions, in which he has at last acquired a proficiency which surprises and charms every one who has had the felicity of listening to his performance."

The Brazilian papers contain the following astounding story of "post mortem" remorse of conscience and restitution. We are willing to forgive any subscriber, now in 'other world, who may have "shuffled off" in our debt, if he will pay us a similar visit, and refer us to a solvent son or even uncle. It is necessary to add that the Itapemirim gentleman is a reader of the STANDARD. Just like his luck! "A gentleman residing in the municipality of Itapemirim, Espirito Santo,

relates that, one night recently, he was called to the door by a rapping at it, and, on opening, found himself face to face with a deceased cousin, who had died some months before on bad terms with him and owing him a lot of money, and whom he had said he would never forgive for bad sayings. But the defunct, squeezing his hand warmly, begged his pardon earnestly and told him that one of his sons would pay the debt. Then, receiving forgiveness, he took his leave. Only after a time did the inspirited creditor remember that his model debtor and visitor had been a dead man for some months".

At a conference recently held in Chivilcoy on education and other subjects, we hear that an English lady read a paper on the instruction of the masses that fairly astonished her auditory for the depth of conception and knowledge of the subject it displayed. We have not been favoured with her name.

The very latest "lusus naturæ" is or was a calf with three eyes, born and buried last week at the "Medana Blanco" chacra.

We observe some diminution in the registered deaths from small pox, but more sudden deaths from apoplexy and heart disease than usual.

Another tramway project is before the Municipality of Rosario. The promoters propose to run the line from the town, by the Cemetery, to the Saladillo; and most of the landed and house proprietors on the route offer to subscribe handsomely to the line.

None of the 'Romances of the Sea' exceed in interest that in connection with the recent voyage of the Abby Clifford from Rio to New York. When a few days out, the captain, pilot, and mate died of yellow fever. None of the sailors on board could navigate the ship; but the widow of the captain heroically assumed command of the vessel, knowing a little of navigation, and took it safely to New York after a stormy voyage.

The new fountains in Plaza Veinte-y-Cinco de Mayo are expected to be ready to play on the Ninth. They are of classic design, and will prove a considerable advantage to that somewhat musty neighborhood.

A contemporary announces that an employee in the National Telegraph Office at Rosario has been put 'á la porte' for sending improper telegrams on his private account. 'Sarve 'im right.'

We learn from Rio Janeiro that the Emperor has conferred the Officership of the Order of the Rose on Mr. T. C. Cobbold, H.B.M. Secretary of Legation in that city.

The newest paper in Rio is an illustrated, political, seric-comic organ called the *Typy*. We salute it, and hope it will be as funny as its name, in writing which great care is required not to style it the *Tup'ny*, which might seem opprobious.

Letters from Brazil still announce the prevalence of various kinds of deadly fevers in the Interior of that empire. At a small place called Cometa 12,000 people are reported sick, and deaths from 15 to 20 daily. Along the coast yellow fever lingers at some places.

From Asuncion a touching "entente cordiale" is announced between the Argentine and Brazilian Commanders, their officers and men. May it be Domsday before they are called on to be other than friends.

It is said the new Provincial Bank will be inaugurated early next month. It is out and out the crack building of the city, and will require quite a special "blow out" to christen it.

Ladies are now admitted to the weekly 'at homes,' every Friday evening, of H.E. the President of the Republic. At first these reunions were confined to the ugly sex.

Dr. Gainza is expected to bring back from Azul 1000 hard dollars-worth of 'information' as to the frontiers; at least this is the sum the Treasury has to 'fork out' for the Minister's 'paseo.'

The proposed Army Enlistment law is published. Its chief features are, that no criminals of any description shall for the future be admitted into the army, and that a bounty high enough to induce honest citizens to enter the ranks will be offered. The debate on the bill commenced yesterday in Congress.

The new project of law in the Provincial Chambers proposing that the proceed of the sale of public lands shall be devoted to telegraph and railway extensions in the province, and other useful public works, is also important, and, it is believed, will pass.

The Municipality has issued a notice that whenever a performance is postponed or changed at any theatre the public have a right to demand the return of their money. This is quite right; when the public pay to hear Peter sing it is not fair that they should be forced 'nolens volens' to look at Paul dancing. What can be more trying to ordinary nerves than, on entering the theatre, to see the ominous words in red paint, 'Por indisposicion of somebody,' and underneath the irrepressible 'Trovatore,' or hackneyed drama scrawled in gigantic letters, and yet feel that the performance must be sat out, or the price of admission forfeited. The new law is a good one, and will make managers careful that their artists are not given to voluntary 'indisposition.'

In another column will be found some highly interesting statistics respecting Montevidean securities signed by Porteña, who is a gentleman well up on the subject.

Maestro Elena's "habanera" from Ruy Blas is now to be found in every fashionable drawing room. It is very pleasingly arranged, and is to be had at Machado's in Calle Bolivar and other music shops.

THE STUD-FARMS OF THE PLATE.

No. 4.

THE ALAMOS.

"I wish your horses swift and sure."
MACBETH, Act 3—1.

"Shall I meet you at 'Scarbro' Station or will you go out with me on the break to-morrow" said our friend L. when we announced our intention of taking a look at the well-known blood-stock of Mr. Latham upon the ensuing day. Having an intense hatred to being carted along like a human package with all feeling of volition suspended we need hardly say we chose the road, and the following afternoon found us helping L. to put to his cattle at Barracas, from which odoriferous Cologne of the Plate we made our start. The team consisted of the steady old break-horse Mr. P. as near wheeler and three greys, two of which were quite new to the business.

It was ticklish work with the near leader who manifested a decided objection to the splinter-bar touching his hocks, and nerves dont' improve like port wine by time. One glance, however, at the way in which our pilot gathered together the ribbons and swung himself on to the box told us we were in the hands of a workman, and leaving the heads of the leaders we climbed up alongside our companion with a sense of safety that was refreshing after the little excitments we had been generally treated to when wildly steered by some of the Phaetons of this city. A playful rear or two, then a plunge into their collars, and we rolled away into the gloom; the "pantano" near General Mitre station was a caution with holes here and there big enough to bury York Minster in, but the staunch little team laid down to their work and got us through. The roads out of town are very fair this winter and in a little over an hour we turned into the avenue gate and drew up three minutes after in the stable yard of the Alamos. Dinner was waiting and we had the pleasure of joining in the celebration of the birth-day of a young friend whom we found had left for school in England since we were last under the hospitable roof. Next morning the young stock was driven up in to the corral for inspection; but a few words about the formation of the stud farm before proceeding to describe the stock will not be out of place.

When Mr. Latham bought The Alamos, the purchase was the derision of the country-side. The neighbors said the land was bad, cold, and irreclaimable, besides which it had been so 'flogged' by rapacious short-lease tenants that most of it was very foul and overrun with the worst kind of weeds. But the man who took hold of it combines in a rare degree a thorough knowledge of the most advanced theories of scientific agriculture with the practical experience of a farmer, and in a few years what looked like a magical change to the rule-of-thamb people around him was produced, and in place of the wastes of abrojo, carretilla, and thistles, well-fenced paddocks of English grasses and meadows of rich alfalfa greeted the eye.

The Rambouillet sheep, in which Mr. Latham as a breeder is on this continent 'facile princeps,' has always been the strong point of Los Alamos; but its owner was a horseman bred and born. The place wanted a bit of blood about it, to improve, if possible, the straight shoulders, flat ribs, and the short quarters of the country breed; so Elcho, a son of that pride of Ireland, Old Harkaway, was brought out from home. Buckhunter, by Venison, was a second importation; and from these two most of Mr. Latham's half-breeds are descended.

There are about 40 brood mares, some of which are of a particularly good quality. Graceful, a remarkably blood like chesnut, Lady Lhanher, a great slashing, lengthy mare, and Meg Merrilees, whose last year's colt to Old Warden, a wonderfully good looking one, and all but thorough bred, unfortunately was strangled this autumn. Golden Hair, Red Riband, and Sunbeam, are also nice bred mares. Among the young things, Priestess by Old Warden, dam by Buck-hunter, grandam by Elcho, rising 2, is a perfect beauty, and nothing but the length of the figure prevented a Brazilian Count from taking her away with him the other day to go a good thing in Rio; as it is she is morally certain from her looks and breeding to make our Argentine cracks gallop some day. Cardinal and The Saddler, by Darrell, a son of Buckhunter (the stallion at present used on the estate) are both useful young horses, the latter (a powerful black rising 3) particularly so.

An adjournment to the stable yard and boxes showed us the handsome chesnut Venison, by Buckhunter, decidedly the truest made and most bloodlike young stallion we have seen in this country. He stepped round his box in a light corky way, as if perfectly conscious of his well won honor at the Cordoba Exhibition, where they could not do otherwise than give him the gold medal. As neighbours to the chesnut we found Volunteer, a great weight-carrying 4 years old, and last, not least, Othello (Miss Latham's favorite hack) both of those also having been 'decorés' by the judges at Cordoba. The black who had just come up from a long spell at grass after his two game but unsuccessful struggles at the last Lanuz meeting, looked big and well, and was kindly put at our disposal for a ride over to Quilmes.

We appreciated the honor of riding as sweet a goer as ever carried 'ladye fair,' besides which, to our great satisfaction, the horse, who though naturally fine-tempered, requires occasionally a horsewoman to ride him, behaved remarkably well. Since that he has gone into training for the approaching Club meeting, and nothing would give the English public greater pleasure than to see the scarlet and black hoop go first past the judge's chair.

Time only permitted a short inspection of Mrs. Latham's pets, the short-horns, whose butter and milk-giving qualities we have often had the pleasure of practically appreciating. Billy Snow, a pure white, is the patriarch of the herd, and will find a worthy successor in Heavyside, a roan yearling of 7-8ths blood, though ninety-nine in a hundred would take him to be thorough-bred. Amongst the cows and heifers, Dainty, Colleen Bawn, and Cowslip are particularly nice level animals, with lots of quality; and the calf-pens showed some very pretty inmates, who looked by their condition as if they had made some extensive inroads upon their dams' contribution to the dairy.

"Now come and look at the bread-winners," said our companion, leading us to the ram-pens, where the far famed young Rambouillets of The Alamos were grinding up fragrant English hay and alfalfa.

But here, humiliating though it is, we must confess we were abroad, and the trifling experience we had had in Lincolns and Leicesters bred for both mutton and wool as at home only confused our perceptions of what is the right thing in a Rambouillet or Negrete, rendering our frightful ignorance of the subject something appalling to a judge; so beyond a few safe generalities we wisely held our tongue. 'Apropos' of the fleecy treasures, many of your readers know the long warfare carried on between the master of The Alamos and the much respected Mr. Hannah, the King of the Negrete breeders, touching the respective merits of Rambouillets and Negretés. Just before Mr. Hannah went home he visited his old antagonist. Less interesting meetings have been chronicled at length than that between the two men who have done so much to develop and improve, each in his own line, the great staple wealth of the country; and there is many a man in the camp to-day who little dreams that his comfortable income is to a great extent the result of the labours of such pioneers.—There is was

——The stern joy which warriors feel
In foemen worthy of their steel.

at the interview between the two, and Mr. Harratt characteristically and gracefully revoked much of his old opposition to the Rambuiellets, as later years of experience had convinced ed him, that with good keep a cross from them on Negrete ewes gave as favourable results as the Lincolns and Leicesters of Mr. Welchman and others had produced with the Rambouillet strain.

In conclusion, we who have 'passed so many pleasant hours at the Alamos are only echoing the feeling of regret among the English speaking community at the absence from amongst us for some time past of one who has always been in the van of enlightened progress, and it is only left for us to hope that though, alas! a prisoner at home, the thorough agriculturist, accomplished scholar, and kindly English gentleman, will still continue to give the results of his extended experience and practical grasp of 'what ever subject is taken up, to the country of his adoption.

"HOLDERNESS."

MONTEVIDEAN SECURITIES.

To the Editors of the STANDARD,

Gentlemen:

In your money article of yesterday I perceive a statement referring to the elasticity of the resources of the Uruguay Republic, and the fidelity with which it has complied with the service of its public debts; and am glad to find that in Buenos Ayres a spirit of confidence is beginning to be developed with regard to Oriental securities, which in the opinion of many are in no way inferior to ours. Indeed it is an anomaly that National Bonds here should be worth 73 without any specific guarantee, whilst similar securities, guaranteed by special hypothecation on customs receipts in the Banda Oriental, should range from 50 to 60.

As a proof of the guarantee, on M. Videan stock, I will take for example the Deuda Estraordinaria, a debt payable in gold; the data in my possession being derived from the highest official source, namely, the Junta de Credito Publico, during the past month—

Total debt		$f.3,000,000
Annual service on same		
6p% interest.....	$f.180,000	
1p% amort.....	30,000	
		210,000
Received from Treasury by Junta de Credito Publico, from November, 1871, to 30th of April, 1872.....		$f.112,668 64
Do. do.. for month of May.....		26,948 64
		$f.139,617 28

This total has been produced by 2 per cent. (gold) additional duties on imports; and I would call special attention to the amount thus produced from November to May 1st, during the worst months of the late civil war, as being more than ample for the service of the debt; whilst if we take the month of May, when peace reigned, as a fair average of normal produce, we find that $f26,948 64 exceeds by above 50 per cent. (or $19448 64) the amount required for interest and amortization. Why, therefore, should the Deuda Estraordinaria of Montevideo be selling at 53, as quoted yesterday, and which yields nearly 12½ per cent. at these prices, whilst our 6 per cent. bonds here are at 73½?

With the plethora of money now existing in our market here, gaining only 6per cent., it is surprising that investors will not step across the way and gain 12 per cent. from our neighbours, and with equal, if not greater security.

I remain, Gentlemen,
Yours very truly,
PORTENO.

People have little else to do on the Bolsa but discuss politics, pending the hourly-expected arrival of the Boyne with news from Europe.

The Brazilian difficulty has lost its alarming character, and it is even doubted whether diplomatic relations will be suspended, but in any event this is regarded as the most serious event that can befall us. It is generally admitted that war is out of the question. Nevertheless private letters from Rio fully confirm the fall in all classes of stock in Brazil, as alluded to in this morning's *Mercantil*, with the exception of Bank of Brazil shares, which improved a little, the dividends falling due. Rumors are also current that Gen. Mitre sounded Pres. Gomensoro as to the attitude which Banda Ori ntal would take in case of a war with Brazil: no credence can be given to these rumors for even if such an interview occurred it is highly improbable the result would transpire s soon, yet it is affirmed that Gomensoro said he could not in such event close Montevideo to the Brazilians, but would adopt the same course as when Spain quarrelled with Peru and Chile, leave the port freely open to both flags.

The Bolivian question seems amicably settled, but there are signs of trouble with Chile about the guano in the Straits of Magellan, as shown in the debate in the Chilian Congress, where it was admitted that the Argentine Minister, Sor. Frias, had made reclamations, but the Chamber paid no heed to these, and gave a concession to Daniel Cruz Ramirez to extract guano from the islands in the Straits.

The delay of the Boyne has doubtless been caused by the pampero of the last couple of days: her advices may bring the reply of the Brazilian cabinet to Dr. Tejedor's not', if any answer be given.

National Bonds were weak to-day, the only transactions being 20,000 for August 12th at 73½, and in liquidation at 73½ for Saturday. Cedulas are firm: 2,000 of A series at 95½.

Exchange: a little done on England at 49½: on Montevideo at ¾ premium, drawers asking ¾. Sovereigns may be had at 2 reals premium, though we hear of some parties getting $1

In the wool markets little or nothing is doing: the Once is nearly empty, and as recent rains prevented anything coming in from outside, the railway has brought none either.

Hides, nothing doing, season over.

There is a continued demand for house-servants, especially cooks.

Cardiff coal is nearly exhausted, and little chance of more for at least a month.

Some excitement was caused to-day in front of the Bolsa by a man apparently dead or dying, who was taken off the trottoir by two policemen and removed in a custom-house cart. It was said the man in question had been fighting and stabbed some one on the Beach, after which he was pursued by the police, and shewed fight, till the vigilantes found it necessary to cut him down.

The new enlistment law is favorably commented on, as it provides that henceforth no criminal can be sent to the ranks, but only good members of society at a fair pay and stiff bounty. Criminals are to be sent to jail.

The budget voted by the Provincial Chambers for 1873 is as follows—

City Patentes.....	12½	millions.
Camp do.....	2½	"
Stamped paper.....	12½	"
City Contribucion D.	20	"
Camp do.	7	"
Public Lands.....	9½	"
Interest on loan	4	"
Saladeros	2	"
Subsidies from Nat. G.	18½	"
Various	5	"
	93	mil. rev.

Some people think that the Government ought to publish Cohen's and Thompson Bonar's notes mentioned by Minister Dominguez, since Congress called for *all* documents respecting the loan.

In another part will be found an advertisement from the National Gas Consumers Co. for a site for the proposed Gas Works. We hear the works will be commenced early next month, and contain all the latest improvements for the manufacture of coal gas

News from Rosario announces another tramway scheme for that town. The application has been already sent to the municipality for the concession, and the probabilities are that it will be granted. The line is to run from the market along the Calle San Juan, and thence to the Plaza Santa Rosa; from thence along Calle Entre Rios to the Cemetery, and thence to the Saladillo. The company to be formed in England, and smal' steam traction engines to be used instead of horses.

Another important sale of land in the district of Quilmes was spoken of to-day, but as yet the terms are kept quiet. It appears that besides the railway there will soon be a tramway to Quilmes, at least so the Quilmes people say, a continuation of the Barracas line of the City of Buenos Ayres Tramway Company, along the high road, from the Barracas bridge to Quilmes. Doubtless this will be an immense improvement, but it is questionable if the place can support two lines, and it really looks to be overdoing the business.

According to the latest dates from Rio, it appears that the people there believe that the Argentino Republic is already receiving tremendous armaments from Europe, and that at the Custom House of Buenos Ayres nothing is landing but rifles, muskets and steel cannon. Perhaps it is just as well that all this should be contradicted since nothing of the kind is going on, and as for a stand of 60,000 arms now landing, it is all imaginary. These warlike rumours have affected already the Rio market, and caused some loss—exchange fell off ½, and sovereigns rose in Rio when this knews per Neva was known. The Rio newspapers ought to publish also the fact that Messrs. Mitre Vedia and Co. put up on Thursday 2,000 splendid muskets, and not half a dozen of bidders could be found.

Everyone praises Governor Acosta's new measures for an improved camp police force. The shopkeepers and dealers outside will only too willingly pay any tax necessary for the maintenance of such a force, provided that the right sort of men are employed; furthermore, it is generally said that this new force will after all amount to nothing unless there is a complete change made in the criminal jurisdiction of the Courts, and the resolute and immediate punishment of crime. The new Jefes should be armed with the jurisdiction of Coroner, and in every murder case, summon a jury of neighbors, try the assassin if under arrest, and if convicted have execution carried out within 12 hours after the rendering of the verdict. If Governor Acosta would introduce this amendment, his new measure would be one of the best reforms ever attempted in this country. As it at present stands it will amount to little, although good enough in its way. 'Tis the judge, not the vigilante, that is blamed for the increase of crime in the country districts. The tax to support the force will be but a trifle which every estanciero will willingly pay, but crime must be punished summarily, and Governor Acosta's measure does not contemplate this.

Another new patent was taken out to-day by a Mr. Paggi, for the manufacture of a species of artificial brick and tile pavement.

The extension of the Western Railway to Bragado will soon be commenced. A bill has been laid before the Legislature providing for the employment of a portion of the money received on the sale of public lands for the construction of this line.

The death of Sr. Miro will bring some splendid properties into the market. It appears that the annual rent roll of the estate of deceased amounts to almost 1,200,000 m/c, Ten thousand pounds a year! and yet Mr. Miro began life a poor man, and the first money he made was in the camp in estancia business.

In the partido of Arrecifes a magnificent estancia of some four leagues is now offered. The estancia house, puestos, galpones etc. are about the finest to be met with in this country. The proprietor sells out, being tired of the camp and wishing to come to reside in town. Full particulars of this magnificent estate we shall publish in a few days.

The great Montevidean drydock, cut out of the rock by Mr. Cock, C.E., for Baron Maua, is now nearly ready. We hear that except the great drydock at Rio, there is nothing at all in South America to be compared to it. When finished, it will be an immense convenience for the ocean steamers now trading with the Plate. The drydock at Colonia, although good enough in its way, is too small for these large steamers. Captain Manton is now in the States making arrangements for the enlargement of his dock, and we hope and believe he will succeed; but Colonia, after all, is too far up the river for ocean steamers; and Montevideo offers immensely more advantages. The dock at Montevideo is a masterpiece of art, and has cost the Baron an immense sum; but it will last, and be a splendid monument of what the Baron has done for the shipping commerce of the River Plate. We expect to get in a few days a detailed description of the M.Videan dock, giving dimensions, &c.

At last favorable advices have come out from England of a satisfactory nature, respecting what is termed the Riestra Gas Company concession. The business was taken in hand by a London Company, and on the 14th ult. was launched. There can be no doubt as to its success, since the matter has got into such good hands. The capital of the new company will be three times that of the present Gas Company. The site for buildings has been already purchased; and the public will have one reason to rejoice at the success of the new concern, inasmuch as the price of gas will be at once reduced to $100 m/c per mil feet.

The new paper manufactory has at last taken shape, and by next English mail a gentleman leaves this to purchase the plant, &c. A site for the manufactory has been given by Mr. Lozano, who takes an immense interest in the success of the enterprise. The paper will be made from the fibrous grasses of the islands in the Parana, the supply of which is inexhaustible. The new mill will be able to supply all the city papers with as good paper as they at present import from Europe, and at 50 per cent. lower than it at present costs them.

It was said on 'Change to-day that another building almost facing the STANDARD Office and Bolsa will shortly be pulled down and a splendid edifice erected thereon. $13,000 m/c. per month on a lease for 20 years, has been offered for a site alongside the Bolsa 20x70, whe con it is proposed to erect a large house, the building to remain to the owner of the site at the expiration of the lease. The offer was declined, as also a bid for the purchase of the site for 105,000 pats. cash.

The Captain of the barque Adelina Riva notifies that said vessel, registered in Buenos Ayres, has sold at a port in Galicia, in Spain, and he now calls upon all parties here who have claims against said vessel to present same.

The holder of Cedula Series A. No. 725 is notified that same has been drawn at the Amortization and is payable at par, furthermore that it ceases to gain interest; it appears that the holder only the other day collected the very coupon on the cedula, utterly ignorant that he was entitled to call for the amount expressed on the face of the cedula. As yet there is much confusion in the minds of the public about this stock, another party actually mortgaged his own property to the bank and now holds the very cedulas to give him a rent.

The amortization of the Nat. Bonds and Roads and Bridges stock comes off on the 8th inst. at 1 o'clock. It is every way probable that the bids for amortization will not come from the Bolsa this quarter as several outside parties who hold the stock refused to sell at the end of the quarter preferring to take the chance of the amortization.

The Municipality calls for bids for the supply of 2000 trees, 500 paradise 3 years, growth 1500. Eucalyptus of one year's, growth, the bids to be opened on the 6th inst. at 2 p.m.

The new market at Chivilcoy will be inaugurated on 31st, a special train will take out shareholders and friends.

The water board calls for bids for the supply of 930 tons English flag stones, bids to be opened on 20th inst. at 3 o'clock.

On Thursday a meeting of the creditors of M. Canouge was held; it appears the state will give nothing, the bankrupt having lost everything in the jerked beef trade with Havannah.

On Monday 15th a general meeting of the shareholders of the Compania de Navigacion a Vapor del Rio de la Plata, will be held at the offices in Calle Cuyo No. 24 at 1 p.m.

The returns of the Custom House for the month of May of the distant province of Salta are good, some 23,000 Pats. which with the balance from April gives 44,719, this shows a growing trade in that remote quarter.

Everyone takes an interest in the success of the Exhibition scheme for Buenos Ayres; as the board is composed of some of the first merchants in this city, with the excellent Mr. Balbin at its head, its is thought that the affair will be well carried out. There can be no doubt that had the Argentine exhibition of 1871 been held at Buenos Ayres not Cordoba, it would have been a splendid success.

The sale of land and cattle at Messrs. B. Nazar & Co's. auction mart on Monday last was a splendid success, proving the steady rise in country interests. Sheep-farming gave such large profits last year that it is now regarded as the safest if not the most brilliant of businesses, and small capitalists who formerly invested in suburban lots trusting to tramway concessions for a rise are once more turning their attention to the more legitimate investments.

1 League 613 millessinos sold at the rate of 1,200,000 m/c. per league.

16,000 mestiza sheep at 33½ to 41 each.
1,000 merino at 65 do.
Horned attle 110 do.
Horses at 450 do.
Mares at 250 do.

The entire sale realized about $3,000,0000 m/c. more or less.

On Wednesday 31st inst, the same leading firm will sell 42 *magnificent* Rambouillet rams from the farfamed Cabaña of Benovente. Farmers desirous of improving their flocks in wool and stature should not fail to secure one of these animals, which by reason of being raised here are more healthy and better acclimatised than the most expensive sheep that could be imported.

For the last few days Congress has been busy considering a special bank bill to legalize a state bank in Entre Rios. It is probable that the bill will pass, but with a special reservation that the bills will only be accepted at the public offices as long as they rule at par. There is a nervous twitch in the House about this new bank bill, possibly because the bank will be Entre Riano. One of the Congress members opposed the bill on the plea that Congress this session is about to pass a general banking law which will do for all banks, all emissions, and all time.

Mr. Gorostiaga has achieved a notoriety in both plazas by the splendid prices he has obtained for his capones, 65 is a figure never before known in this market. The Gorostiaga estancia is now famous for the high price of its wool and capones. The estate is one of the largest in this country, and the management second to none other.

It was said on 'Change to-day that unless contractors accept the bonds in payment, and at their full market value, the Tucuman Railway must stand for the present, as but half the loan is done. Some of the bids sent in for the work, however, expressly offered to accept these bonds in payment; still in the minds of some there is an apprehension that the country will be taxed to its utmost to pay the interest and amortization on those bonds. The apprehension is groundless, since it must be borne in mind that the work itself will largely increase the revenue, and the road before half finished to Tucuman would cause such a stir up in those parts that trade would be at once benefited by it. Tucuman tobacco is a staple article of consumption in Chile, whilst it is unknown here; the cause is, that it goes to Chile for 24 pats. per cart load, whilst it costs 40 pats. to come to Buenos Ayres. There are numerous other articles of native production in the provinces which to the present are unknown in this market, but which on the opening up of the country by railway will at once come down to us. Sugar, for instance, is promised us when the railway runs to Tucuman, but we must wait awhile for such a noble staple.

Don Mariano Fragueiro, an Argentino merchant of much note, died in Cordoba last week. Mr. Fragueiro's name figured in some of the principal contracts in this country, and he was a man of great influence and wide repute.

A German gentleman named Schade has charmed the San Juan capitalists by his views respecting Artesian wells. He proposes to go to Germany and form a German well joint-stock company. We should like to see the prospectus.

Mr. Vangelderen informs us that his proposal before the Municipality is not of a pawnbroker character. It is on the same scale as the Caja de Credito, with a Monte Pio attached. The capital will be £300,00, and will be at once subscribed on obtaining the concession.

The receipts of grain at Rosario the other day were heavy—7213 fan. maize, 1313 do wheat; all at once forwarded to Buenos Ayres.

People in Rosario are nervous about the Territorial Bank business Some believe it has been sold, and others that the whole thing is squashed. The real truth of the affair is, as we have already published, the whole thing has fallen through both in Hamburg and London, owing to Mr Guerra having taken letters from leading foreign capitalists in Buenos Ayres to Murrieta and others. He was at first well received, and Murrieta asked for the papers to look into the matter; but he subsequently handed them back to the agent, stating that the business did not suit the house. It was rather an unhappy thing for Rosario that the business was not left in the first agent's hands.

The storm has been severe enough in Montevideo according to the telegrams. The Lusitania could not get away, and the Porteño also had to stand by, she leaves to night.

Another new market is now about to be erected in the west end of the town, it is already proven that the city may have such a thing as too many markets, yet the site for the new market appears well chosen, at the corner of Charcas and Callao, a district too remote for the cooks to get beefsteaks and mutton chops in time for breakfast from the La Plata market, the market will be iron and wood and probably will pay well.

It is a noticeable fact that the great bond king has just bought a splendid Government land estancia out west, other brokers will soon follow—

Sr Muniz has obtained the right to start a joint stock bank in the Province of Tucuman, capital to go up from here.

There was sunshine in Rosario the other day when the news spread that the London and River Plate Bank had reduced its rate of interest, all the Rosary merchants complain of the dearness of money in their market. The trade of Rosario after all looks improving, 53 vessels in cargo cleared last month, and 79 vessels in ballast.

Mr. Calvo has raised the hopes of the people in Rosario and Cordova, by writing out from London the most grateful letters respecting the new water works, which merchants must recollect were first launched then withdrawn, then at a stand still and now at last finally done, Calvo writes that pipes, pumps and cocks may be looked for soon at Rosario, the whole business is done and done well, and plant is ordered and now goes forward.

SAVINGS BANK

BANK MAUA AND CO.

101--Calle Cangallo--103

BUENOS AYRES.

The immense advantages of Accounts Current o now so generally felt and appreciated in the wo great emporiums of the River Plate, Montevideo and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Maná & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depository for their savings.

The sums deposited in that very important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need sickness, or old age, instead of spending them in immoral gambling, in lotteries, and other frivolities.

The Bank of Mauá & Co. of this city, following o noble example of their firm in Montevideo, w offer the same facilities in this city, and has opened a Savings Bank at No. 103 Calle Cangallo from Nine a.m. till Three p.m. every day, for the reception of the savings of the classes already mentioned, Sundays and holidays excepted.

The Bank will deliver to each depositors a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interest will be calculated up to date.

The Bank of Mauá & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Mauá & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.

Buenos Ayres, 2nd January, 1867.

CONDITIONS.

First.—The Bank receives at interest any sum from Twenty-five Dollars currency or one Silver Dollar upwards.

Second—The interest allowed is six per cent. (6 p. %) per annum, which is liquidated every six months.

Third—The depositors can at any time retire he whole or part of the money deposited.

Fourth—Once the money deposited exceeds wenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wish can open an account current, according to the rules established by the Bank.

Fifth—In case the depositor loses his pass book it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

Bristol's sarsaparilla

Is prepared in the most scientific manner, by thoroughly educated chemists and Druggists, who have had many years' experience. It is not a simple extract from one article, but is compounded of extracts from a number of Roots, Herbs Barks, and Leaves, all of which are possessed of some particular virtue or power in curing the diseases that have their source in the blood and humors; these different vegetable extracts are combined in such a way as to retain, in so full strength, the special curative virtue possessed by each. The root of the Sarsaparilla plants found in Honduras, is that which we use in this preparation; it is the kind which all medical men esteem most. About fifty per cent. of Bristol's Sarsaparilla consists of the concentrated extract, the remainder, as above stated being composed of extracts from other powerful, cleansing and healing vehetable substances. It does not contain any thing that is dagerous or injurious to health, and in this, as in nearly every other respect, is entirely different from all other preparations sold under the name of Sarsaparilla.

By having our own agents at he places where the various roots, drugs, herbs and plants, composing our medicines, are produced, we are enabled to exercise that constant care in selection which insures uninformity of excellene, and we spare no money and no effort to procure the best—and only the best—of every article entering into their composition; and it is with the most abiding confidence we say, to be sick of all nations and all countries, that, in Bristol's Sarsaparilla you have a remedy more reliable than any before offered to you, and which will no disappoint syou in the cure of.

Salt Rheum, Tetter, Scald Head,
Syphilis, or Veneral Disease,
Nervous and General Debility,
Old Sores, Ulcers, Tumors,
Abscesses, Boils, Eruptions
Scrofula or King's Evil,
Female Derangements,
White Swellings,
Fever and Ague,
Chills and Fever.
& Dumb Ague.

As a means of building up the consititution that has been broken down by the excessive use of Mercury, Iron, or other Minerals, our Sarsaparilla will be found most excellent, and can be administered with safety to the weakest patients. As a purifier of the blood and humors, in the Spring and early Summer, it will the found unfailing. It can be taken freely at seasons, rainy or dry. For some of the above diseases, the use of the Sarsaparilly must be continued a considerable time, especially for those that are hereditary or constitutional in their nature—such as Scrofula: but a faithful compliance with the directions will always relieve and mitigate, and in a great majority of cases will effect a complete cure. It will also be found, in all of the above diseases, that a cure will be greatly hasted by using our Bristol's Sugar-coated Pills, in moderate does, in connection with the Sarsaparilla; they carry off large quantities of morbific or diseased matter set free in the system by the Sarsaparilla, and in this way facilitate the return to normal functional operations. cj—my1

Ferruginous Gin

COMPOSED OF THE
FINEST TONIC INGREDIENTS
SUCH AS
QUININE
BY
J. FERD. NAGEL,
HAMBURG,
INVENTOR AND SOLE MANUFACTURER
OF THE FERRUGINOUS GIN.

J. FERD. NAGEL'S ferruginous Gin does not belong to that class of wonderful remedies which are being sold at exorbitant prices: on the contrary, the exceedingly moderate price places this most efficacious and valuable preparation within the easy reach of everybody. The ferruginous Gin is not intended for all possible maladies and ailments, but is a simple tonic, imparting to it just the quantity of iron necessary for the growth and sustenance of the body.

The medical testimonial treating upon the excellent qualities of this invigorating preparation, runs thus—"The ferruginous Gin having proved highly efficacious in many cases of scarcity of blood and nervous ailments, Mr. S. Ferd Nagel has applied himself to the task of preparing it has succeeded in composing a preparation whied taken alone or with the admixture of Soda, Seltzers or other effervescent waters, is not only agreeable to the taste, but extremely beneficial in its effects upon the stomach and the whole system. The ferruginous Gin containing besides the best vegetable Bitters (China Root, &c.) may be taken even by people of delicate constitution before and after dinner in doses varying from 2 to 4 tablespoons full,—100 parts ferruginous Gin contain 0,12 parts iron oxyd."

The ferruginous Gin may be recommended as an admirable cure for Green-Sickness, nervous ailments of all kinds, general debility, Fluor albus; it purifies the blood, creates appetite, promotes digestion and contains every ingredient necessary for the development and sustenance of the body. The excellent process adopted in the preparation renders it extremely mild in its operation, and it will be found valuable in imparting to the system just the quantity of iron required for the well being of the body.

Mr. J. Ferd. Nagel's ferruginous Gin was first prepared by him in the year 1850, and has since become a general favorite.

This ferruginous Gin has been used extensively and with eminent success as a renovator of the nervous system, and thousands have derived the greatest benefit from its use, for it not only sets right any irregularity of the stomach, liver, bowels and kidneys, but has also proved highly valuable against cholera.

Ferruginous Gin.

ANALYSIS
BY
Professor Kyle.

The Iron exists in the form of a protosalt, one fluid ounce of the Gin containing 3-10ths of a grain of Protoxide of Iron. The Ferruginous Gin may therefore take its place among chalybeate preparations, and be employed with advantage where the administration of a tonic alcoholic stimulant is indicated.

It being an admitted fact, that "Money make money," the object of LA BIENHECHORA could not be better, since it opens a vast Savings Bank for the surplus or savings of the Public o that, by the proper employment of these small gains, a moderate capital, or even annuity, may be secured in a short time. By this means a provident, though helpless, family can husband the small means, and, in the end, attain a competency.

It being proved that the accumulation of interest is the most powerful means of augmenting the capital, THE BIENHECHORA DEL PLATA—an Argentine Company, whose own investments are in the country—holds out to Subscribers greater advantages than any other institution, by reason of all its dealings being in the River Plate, where are current as large interests as in any part of the world.

THE BIENHECHORA DEL PLATA receives Deposits of from Five Patacones per Annum up to any amount in Weekly, Monthly, or Yearly Instalments.

CLIMATE.

One of the greatest phenomena of Nature is the mysterious influence of climate; and we hold that the grand cause of disease and human inconvenience is climatic.

The sudden transition from heat to cold in England is the foundation of consumption and premature decay; but in Buenos Ayres, with a highly rarified atmosphere, surrounded with plains which for hundreds of miles are unbroken by an elevation, the shifting of a few points of the wind varies the climate from a semi-tropical heat to a piercing coldness. Various expedients have been resorted to to fix a remedy—some 'decoct' cocktails, others extol brandy. Alas! the remedy is as bad as the disease. Blighted prospects and insanity are often the sequel. Common sense points out that the way to establish an equilibrium is by attending to the article of Clothing. Dress warm, but light. Have your Coats broad on the chest, to allow the lungs to expand; your trousers to fit easy without braces; in fact, go to RODGERS & BAKER and order a suit of suitable clothes, and you can throw cocktails and physic to the dogs, and walking forth beneath the azure arch of our matchless sky, fearless you may face the scorching Brazilian sirocco or the icy blast from the snow-capped Andes, proudly exclaiming 'Excelsior!' my clothes also made by
